

Learn To Skate New Protocols

*All new protocols will be followed through the month of June & tentatively July

Restarting/Opening Date: June 1st, 2020

Social Distancing Learn To Skate Class Guidelines:

- Learn to Skate classes will be conducted in accordance with U.S. Figure Skating and Learn to Skate USA recommendations.
- Skaters are strongly encouraged to arrive dressed to skate before entering the main doors. If possible, skates should be put on before entering the building.
- Rental skates are available to use if needed and will be sanitized after each use.
- For the time being, we will not allow skaters to borrow gloves from the "glove box". Please plan accordingly and bring your own pair.
- Before taking the ice, skaters must contain their belongings (shoes, socks, water bottle etc...) inside their skate bag.
- Only one parent may remain in the building with a minor child who is skating. Siblings and additional non-participating spectators are not allowed in the facility.
- Our bleachers will have seating areas marked for social distancing. Parents may sit in the bleachers during class or practice social distancing in the lobby.
- Coaches and class assistants will wear face masks and skating gloves during class. They will refrain from physical contact with students (ex: holding hands, repositioning arms, assisting skaters to stand, etc...) unless absolutely necessary.
- Coaches will section off areas on the ice and utilize adjusted lessons plans to adhere to social distancing standards.
- There will be no use of water fountains in the facility.

New Entering/Exiting Class Protocol:

- When entering the facility, skaters will go through the main entrance, lace up skates (if they are not already on) and proceed straight into the ice rink for check-in. **Rental skates must be picked up at the skate counter and laced up prior to entering the rink.* Once inside the rink, skaters will be shown a designated waiting area before taking the ice. Skaters will enter and exit the ice at staggered times. After class, all rental skates must be returned to the skate counter for sanitation. Finally, skaters will gather their belongings and proceed to exit the building. All main doors will be marked for entering/exiting - this way if you choose to wait in the car, you will know exactly which door to look for your child out of.

Make-Up Classes: To schedule a make-up class for the 2 weeks missed in March due to the facility closure you will need to call the front desk to schedule. You will be able to make-up in any other Learn To Skate class as long as there is space and availability.
