

Mommy & Me New Protocols

*All new protocols will be followed through the month of June & *tentatively* July

Restarting/Opening Date: June 1st, 2020

Social Distancing Preschool Class Guidelines:

- All mommy & me classes will now be held in a designated area located in the front right side lobby fitness area to streamline traffic flow.
- One parent will be required to participate with their own child during class to alleviate hands-on coach spotting for the time being.
- All equipment will be sanitized between each rotation throughout class.
- 6 feet of social distancing will be maintained by markings on the floor.
- There will be no use of cubbies/lockers in the facility. We ask that each child brings their own bag to contain all of their belongings. Including but not limited to- shoes, water bottles, grips
- There will be no use of water fountains in the facility.
- All students will be required to wear socks- NO EXCEPTIONS
- Siblings and additional spectators not participating in class are not allowed in the facility.

New Class Format:

- One parent will be required to participate with their own child during class to alleviate hands-on coach spotting.
What does this mean? You will be your child's helper. You will follow coach verbal instruction to help your child participate in class to the best of their ability.
- Entering/Existing class protocol: We ask that everyone comes in the front main door, and exits the specified door when their practice is over.
What does this mean? When entering the facility you will go through the main entrance and turn to your right. At the end of class your instructor will indicate which side door you will be using to exit.

Make-Up Classes: To schedule a make-up class for the 2 weeks missed in March due to the facility closure you will need to call the front desk to schedule. You will be able to make-up in any other preschool class as long as there is availability.
