

Midwest Training and Ice staff wants to remind you how important you are to us and what we are continuing to do to keep everyone safe and healthy when they are visiting Midwest.

In accordance with Lake County Health Department's orders, we will now be requiring ALL persons entering the building to wear a mask.

Please see below for details:

- Spectators must wear a mask while inside the facility, unless they are seated and eating or drinking.
- Athletes must wear masks while walking inside, and while leaving the facility.
- Athletes will NOT be required to wear masks while in class.
- Please make sure you and your athlete arrive prepared with a mask to ensure the following of the Health Departments orders. (Ages 2 & under are exempt)
- All athletes must continue to wash hands, sanitize, and remain socially distant when possible.
- Spectators are asked to remain socially distant in the bleachers, and while entering and exiting the facility.

We also continue to clean and disinfect all equipment and areas such as locker rooms that are being used. Maintaining a safe and clean facility is our utmost concern and we will continue to provide that for all of our families. We are disinfecting high traffic areas all night long while classes are going on and also before and after classes, practices, and games.

We appreciate your cooperation with this matter, as we continue to adapt to the situation at hand with COVID-19. We want to remain a safe and fun atmosphere for all of our families to come to!

Sincerely,
The Midwest Staff
